

HEALTH COVERAGE AND REGISTRATION WITH THE HEALTH INSURANCE

The steps to take to be covered in case of health problems !

Health Insurance (Social Security)

You were an international student in France in 2020-2021, and are continuing your studies in 2021-2022

- If you were covered by the French health care system (CPAM): no registration is required. But, in order to ensure the continuity of your health coverage, you must update your medical card 'carte vitale', as well as your personal information on your ameli account.
- If you were covered by your European Health Insurance Card, and it is no longer valid, register on <https://etudiant-etranger.ameli.fr/#/>

You are a new international student, enrolling for the first time in a French higher education institution

- You are a European (EU/EEA), or Swiss student
You have a valid European Health Insurance Card, delivered by your country's health insurance organization: no registration is required. If you do not have one, register on <https://etudiant-etranger.ameli.fr/#/>
- You are a student from Québec
You must have the relevant RAMQ form, and do not need to register with the French national health insurance.
- You are of another nationality, and have a visa
As soon as you are enrolled at university, and have your 'certificat de scolarité' or student card, register on the following Assurance Maladie website dedicated to new international students (registration is free) : <https://etudiant-etranger.ameli.fr/#/>

Complementary Health Insurance (Mutuelle)

The health insurance, also called social security, only covers part of your medical expenses. To be better covered, it is highly recommended to take out a complementary health insurance, also called 'mutuelle'.
